### Is democracy over rated?

It was stated by Sir Winston Churchill that democracy is the most awful form of government. Beside for those, which had an experienced on it in the past? Simple to say the democracy has some particular effects, but it can be better than any other system of government; however, the point of view that democracy can cure all the illness of the politics is wrong, critics blame it to be overrated. (Academic help, 2013)

It is strongly beliefs that the substitute of democracy is a dictatorship or monarchy. It is also assured that all monarchies and dictatorship not always end negatively. The critics of democracy always avoid mentioning its benefits. They believe that elections held in the third world countries, are always conducted in an unfair manner. Fair elections are the crucial requirement of a simple democracy. The result of the election is totally depends on the sort of voting system in the country. (Academic help, 2013)

Democracy is practically fulfills the hopes of the people and gives effective ways of handling the state. A reasonable kind of voting system is proportional system, but based on regional peculiarities. Every state chooses the most appropriate type of voting system proportional, majority or mix. Democracy gathered opinion of all people, It gives importance to the point of view of general people, yet it is impossible to work on every suggestion, so a compromise is required. Somehow, critics says, that it is easy to say that democracy is a group of people, who easily oppresses each other. (Academic help, 2013)

Critics point out that china is considered to be a one of the developed countries in the world. They believe that China is more economically successful in comparison to any other democratic country. Critics think that the economical success of the country relies on its political system. Nevertheless, china's development is due to the liberalization of its society.

To make sure that china's economy is progressing constantly, the political system needs more support of the citizens. On the other hand democracy always has a positive effect on the economy of a state. It is not over rated, but the need of the time. Several researches are recently been performed on the connection between democracy and development. According to which democracy encourages more in economic growth rather than, non-democracy. (Abeyasinghe, 2004)

So democracy is not over rated it is being encouraged by developing countries and the countries fostering democracy are progressing.
